DETAILED ACTION

Remark

1. Claims 2 and 18 have been previously cancelled, and new claims 22-25 have been added. Claims 1, 3-17, and 19-25 are pending for reconsideration.

Allowable Subject Matter

2. Claims 1, 3-17, and 19-25 have been allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Regarding claims 7, 13 and 17, the closest prior arts of record issued to Matthews, Klosterman and Howe either alone or in a combination fails to teach or suggest an information handling system, comprising: a graphical user interface in an operating environment, the graphical user interface configured to provide at least one display including information related to at least one channel wherein, the display includes a control corresponding with at least one programming function related to the at least one channel; wherein the display includes an on-screen display that combines a graphic element comprising the control with a broadcast streaming video from a second channel; and wherein said control is one of a plurality of controls including a recording control for recording the at least one channel. Conventional systems must be programmed in advance to avoid interrupting the currently viewed TV show. The present invention overcomes this problem of conventional systems as claim 1 recites "'a control corresponding with at least one programming function related to the at least one channel" and

"wherein the display includes an on-screen display that combines a graphic element comprising the control with a broadcast streaming video from a second channel" and further recite "wherein said control is one of a plurality of controls including a recording control for recording the at least one channel." The hypothetical combination of Matthews and Klosterman does not teach or suggest this feature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
